

Affordable Housing Initiative (AHI)

Let's shape it together!

Brussels, 27 January 2020

Sorcha Edwards

Secretary General at Housing Europe

What features should the projects have?

- Programme kick-off in 2022 at latest.
- Ensure affordable living costs.
- Generate and protect employment.
- Inclusion of vulnerable communities & areas with social problems.
- Improve quality of life in homes, buildings, and neighbourhoods.
- Produce measurable reductions in GHG emissions of districts through sustainable renovation of social & private homes.
- Act as laboratory for improvement of digital skills, renovation tool-kits, sustainable financing and governance models.

What process would you like to see?

Funding available

Technical Support Instrument

Resilience & Recovery Facility

Modernisation Fund

REACT-EU

Affordable Housing Initiative Fund

A dedicated budget line will be necessary for the effective implementation of the AHI. It will also guarantee replication of the 100 district in the medium to long term.

How should it be governed?

To ensure visibility, coherence and ownership, we recommend the creation of a **Affordable Housing Initiative Steering Group** with representatives of key stakeholder groups.

- a sounding board for better policy making at EU level.
- a platform to draw on the experience in the social, cooperative and housing sector.
