CITIES Forum 2020
Together we shape
a sustainable urban future
Porto, 30-31 January 2020

The Urban Agenda Partnership on Circular Economy aims to stimulate the re-use, repair, refurbishment and recycling of existing materials and products to promote new growth and job opportunities. To that end, the Partnership is working on implementing twelve actions aiming to address some key elements of the circular economy in cities.

The Partnership Action Plan

12 Actions to promote circular economy in cities

- 3 Better Regulation
- 2 Better Funding
- 7 Better Knowledge

BETTER REGULATION

Barriers

- The regulatory framework is risk oriented
- Current regulatory frameworks do not provide the proper incentives for eco-design and innovation

Circular City Indicators

Circular City Indicators

What is needed?

- Relevant and easy to access data
- Data available on national level that are available for cities.
- Environmental indicators that are possible to monitor,
- And indicators on economic and social issues.

The partnership has picked 29 possible indicators for cities.

- Process oriented indicators
- Outcome indicators
- Following the EU monitoring directive for Circular Economy
- Example from the City of Kaunas to use the set of indicators
- And a short list to help focus on the most important indicators

Need cities to use indicators for practical experiences

CIRCULAR CITY PORTAL AND GOVERNANCE

- The '**Circular City Portal**' is an openly shared **knowledge database**, inspiring and guiding cities in their journey towards a circular economy.
- Examples from all over Europe.
- Additionally, an integrated and visually developed **governance concept** links all other actions within the Urban Partnership on Circular Economy, and potentially other partnership's related actions.
